CAREER OBJECTIVE

Detail-oriented and motivated **Software Engineer** with hands-on experience in full-stack web development using **Django, Vue/Nuxt, Node.js, and MongoDB**. Proven ability to design, develop, and integrate scalable applications, RESTful APIs, and secure payment systems. Strong collaborator with a passion for building reliable, user-centric digital solutions. Seeking opportunities to contribute technical expertise to impactful software projects while continuously growing as a developer.

ACADEMIC QUALIFICATIONS

Qualification: Bachelor of Science In Software Engineering

Institution: University of Eastern Africa, Baraton

Period: 2021-2025

Achievement: Second class honours (Upper division)

Qualification: Kenya certificate of secondary education (K.C.S.E).

Institution: Ribe Boys High School

Grade: B (plain)

Period: 2017-2020.

Qualification: Kenya certificate of primary education

Institution: Mnyalatsoni Primary school

Marks: 316

Period: 2007-2015

WORKING EXPERIENCE

May – August 2024 – Software developer at Taquana Limited in Nairobi.

- Developed and maintained web application features using **Vue.js, Nuxt.js, Node.js, Typescript, and MongoDB**.
- Integrated **Africa's Talking API** to enable SMS notifications and communication features.
- Collaborated with team members to analyze requirements and solve technical challenges through structured brainstorming.
- Participated in UI/UX design workflows using **Figma**, translating designs into functional interfaces.
- Gained practical experience working in a real-world software development environment.

TECHNICAL SKILL

Programming Languages

- Python, JavaScript, Java

Frameworks & Libraries

- Django, React.js, Vue.js, Nuxt.js, Node.js

Databases

- MySQL, SQLite, MongoDB, PostgreSQL

Web Technologies

- HTML5, CSS3, JavaScript

APIs & Integrations

- REST APIs, JWT Authentication
- M-Pesa Daraja API, Paystack, Africa's Talking API

Tools & Platforms

- Git, GitHub, Figma

Other Skills

- Basic network device configuration

SOFT SKILLS

- Teamwork
- Communication skills
- Problem Solver
- Innovative
- Leadership
- Time management
- Adaptability
- Creativity

PROJECTS

Car Hire Management System

- Designed and developed a full-stack web application for managing car rental operations.
- Implemented **user authentication**, booking workflows, and an **admin dashboard**.
- Integrated **Paystack** as the primary payment gateway for secure transactions.
- Improved operational efficiency by automating bookings and payment processing.

Music Talent Tracking & Location System (WAFUNGI-NATION)

- Built a full-stack platform for discovering musicians based on **skills, availability, and location**.
- Integrated **M-Pesa Daraja API** for instrument rentals and payment processing.
- Implemented **real-time notifications** using **Django Channels**.
- Designed user profiles, skill categorization, and availability tracking features.

INTERESTS

Technology exploration, coding, learning new tools, travelling, hiking, and reading.
